

MOUNTING SUGGESTIONS:

Yamaha Raider 2008-2017 One-piece Seat

Tools needed: Metric socket wrenches and extension

Removal of stock seat:

1. Insert ignition key into the left side cover and turn counter-clockwise until a click is heard and solo seat is unlocked.
2. Lift the nose of the solo and remove the seat from the frame.
3. Locate the two 10mm bolts under the front of the passenger seat and remove with a 10mm socket wrench and extension.

4. Slide passenger seat forward and remove from fender.
5. Remove the center bracket from the rear fender. Replace the bolts into the fender after removing the bracket.

Installation of Mustang seat:

1. Align the rear tab of the Mustang seat with the rearward mounting bracket on the fender, and push seat back to engage.
2. With the key in the left side cover turned counter-clockwise, align the front bracket with the frame latch.
3. Push nose of seat down firmly until it clicks, signifying the seat is latched into position. Ensure this bracket is firmly engaged before riding.

Enjoy the comfort and custom look of your new Mustang seat!

These steps are guidelines to help you install your new Mustang product. If you need further assistance, please call us at 800-243-1392 or 413-668-1100, Monday through Friday 9:00 - 5:30 Eastern or send an e-mail to questions@mustangseats.com or visit our website at www.mustangseats.com.
