

## MOUNTING SUGGESTIONS:

### Yamaha V-Star 1300 2007-2017 Solo and Passenger Seat

**Tools needed:** Metric socket wrenches and extension

#### Removal of Stock Seat:

1. Insert ignition key into the left side cover and turn counter-clockwise until a click is heard and solo seat is unlocked.

2. Lift the nose of the solo and remove the seat from the frame.

3. Locate the two 6mm bolts under the front of the passenger seat and remove with a 10mm socket wrench and extension.

4. Slide passenger seat forward and remove from fender.

## Installation of Mustang Seat:

1. Align the rear tab of the Mustang passenger seat with the rearward mounting bracket on the fender, and push seat back to engage.
2. Insert the two stock 6mm bolts through the rear seat brackets and into the fender bracket. Tighten securely with a 10mm socket wrench.
3. With the key in the left side cover turned counter-clockwise, slide the Mustang solo's rear bracket into the fender receiver. Align the front bracket with the frame latch.

4. Push nose of seat down firmly until it clicks, signifying the seat is latched into position. Ensure this bracket is firmly engaged before riding.

**Enjoy the comfort and custom look of your new Mustang seat!**

These steps are guidelines to help you install your new Mustang product. If you need further assistance, please call us at 800-243-1392 or 413-668-1100, Monday through Friday 9:00 - 5:30 Eastern or send an e-mail to [questions@mustangseats.com](mailto:questions@mustangseats.com) or visit our website at [www.mustangseats.com](http://www.mustangseats.com).

For care and maintenance of our seats, please go to our website under "Support".
