

## MOUNTING SUGGESTIONS:

### Yamaha Roadliner & Stratoliner '06-15 One-piece Seat

**Tools needed:** 10mm socket wrench

#### Removal of Stock Seat:

1. Insert the ignition key into the left side cover and turn it counter-clockwise to unlock the front bracket. Lift solo's nose a few inches, then slide the seat forward and off the motorcycle.

2. Using a 10mm socket wrench, remove the two bolts from under the passenger seat.

3. Lift the front of the passenger seat and slide forward to remove the solo seat.

## Installation of Mustang Seat:

1. Ensure the tool bag under the seat is not overstuffed and is positioned as low into the frame as possible.
2. Remove the rear seat front mounting bracket from the fender with a 10mm wrench, then reinstall the bolts into the fender.

3. Slide the seat's rear bracket into the fender U-bracket, then drop the nose down, aligning the seat's nose bracket with the frame's latch mechanism. Push the nose of the seat down until a click is heard, signifying the seat is latched into position. Ensure this bracket is firmly engaged before riding.

**Enjoy the comfort and custom look of your new Mustang seat!**

These steps are guidelines to help you install your new Mustang product. If you need further assistance, please call us at 800-243-1392 or 413-668-1100, Monday through Friday 9:00 - 5:30 Eastern or send an e-mail to [questions@mustangseats.com](mailto:questions@mustangseats.com) or visit our website at [www.mustangseats.com](http://www.mustangseats.com).
