

## MOUNTING SUGGESTIONS:

### Yamaha V-Star 1300 Tank Bib

#### Installation of Mustang tank bib:

1. Remove the seat from the motorcycle, and remove the forward-most bolt from the base of the tank using a 12mm socket wrench. Note that these bolts are off-center to the right, and the Mustang tank bib has its mounting hole off-center to match.
2. Position the tank bib on the fuel tank and secure the base of the bib to the tank mount with the stock bolt. Do not overtighten.

3. The elastic cord should be lying atop the bib. Pull the elastic cord evenly to each side and stretch it to the underside of the tank near the frame.
4. Re-install seat.

Enjoy the custom look of your new Mustang tank bib!

These steps are guidelines to help you install your new Mustang product. If you need further assistance, please call us at 800-243-1392 or 413-668-1100, Monday through Friday 9:00 - 5:30 Eastern or send an e-mail to [questions@mustangseats.com](mailto:questions@mustangseats.com) or visit our website at [www.mustangseats.com](http://www.mustangseats.com).

For care and maintenance of our seats, please go to our website under "Support".
